Write a composition of no less than three paragraphs in response to the following news story.

When the Los Angeles Lakers lost the national Basketball Association championship, little did they imagine it would nearly get a Taiwanese college student expelled. The incident has caused much discussion on the Internet and got massive coverage in the local media.

The Chang Gung University junior, a fan of the Lakers nicknamed "Francisx" on the bulletin board, bet that his favorite team would win the NBA finals or he would run naked on the campus playground.

After the Lakers were defeated by the Detroit Pistons in the championship series, the student decided to fulfill his pledge by running around campus naked late at night. But despite the cover of darkness, Francisx's antics attracted an audience, and some onlookers took pictures and later posted them on the Internet.

Chang Gung University authorities gave the student two large and two small demerits, just one small demerit short of having him expelled.

What do you think?
