Answer each of the following questions in essay form: 100%

1. In a conversation class, should a teacher remain silent as much as possible? Name and discuss a method or methods of foreign language teaching to support your positive or negative answer.
2. In your opinion, what are the characteristics of "good language learners"? Justify each of your ideas.
3. What are the definitions of intrinsic and extrinsic motivation? In language learning, is it possible to expect students to be totally motivated intrinsically? Discuss why it is possible or why not.
4. Give an example to explain the Natural Approach of foreign language teaching in light of Stephen Krashen's theories of second language acquisition.
5. In theory and practice, should an English teacher do grammatical explanations and analyses in a reading classroom?
