X	簡單型計算機

本試題共 1 頁

1. Define TEFL, TESL, and TESOL and discuss its relevancy to teaching English in Taiwan. (25%)
2. According to language teaching theories, the Grammar-Translation Approach is out of date. According to your experience or observation, what is out of date and impractical? Should grammar be taught or not? Why are there translation exercises in almost all locally edited textbooks even though they are understood to be communicative textbooks? (50%)
3. What is the content of the Communicative Approach? Define it in theory and explain how it can be implemented in practice in teaching English to Taiwanese senior high school students and what difficulties are involved in the process. (25%)
