**Instructions:** Write two compositions to respond to the following quotations from the perspectives of (1) teaching English as a foreign language in theory and practice and (2) the current research which incorporates linguistics, sociology, socio-anthropology, education, etc. 100%

1. Krashen (1982, 1985) stated that language structures are most efficiently acquired when presented through comprehensible input that is just beyond the learner's current proficiency level, thereby forcing him or her to reach beyond the linguistic input and use previous knowledge and communicative context to glean the meaning of unfamiliar structures (Kasper, L. F. 2000, Content-Based College ESL Instruction, P. 4 ).

2. MOE officials said the ministry would push for a revision to the existing Education Law so as to enable foreign nationals who use English as their mother tongue to teach in primary schools nationwide in a bid to accelerate the "English learning for all people" campaign ("Poll shows support for English," CNA, Taipei).
