There are a few possible reasons for ethnocentrism. People are born 31 a particular culture and grow up learning the values and behaviors of the culture. 32, they will develop the belief that their culture is "normal." If people experience other cultures that have 33 values and behaviors, they will find that the thought patters and meanings of their birth culture are not appropriate for the new cultures. It can be difficult for them to see the behaviors of people from a different culture from the viewpoint of that culture 34 from their own. The reason for this behavior is that people 35 their birth culture. Thus, they put their birth culture at the center of what they think is normal, hence the term, ethnocentric.
